N,N-Dimethyl-p-phenylenediamine Sulfate

1. Product Identification

Synonyms: None  
CAS No.: 60160-75-0  
Molecular Weight: 370.47  
Chemical Formula: [(CH3)2NC6H4NH2]2.H2SO4  
Product Codes: K065

2. Composition/Information on Ingredients

3. Hazards Identification
Emergency Overview

WARNING! HARMFUL IF SWALLOWED OR INHALED. CAUSES EYE AND SKIN IRRITATION. MAY CAUSE ALLERGIC REACTION. POWDERED MATERIAL MAY FORM EXPLOSIVE DUST-AIR MIXTURES. CAUSES EYE AND SKIN IRRITATION.

Potential Health Effects

Inhalation:
Is harmful

Ingestion:
Is harmful

Skin Contact:
Irritation, allergic reaction may develop.

Eye Contact:
Irritation.

Chronic Exposure:
No information found.

Aggravation of Pre-existing Conditions:
Damaged skin.

4. First Aid Measures

Inhalation:
If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Prompt action is essential.

Ingestion:
Induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person. Get medical attention.

Skin Contact:
In case of contact, immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before re-use.

Eye Contact:
In case of eye contact, immediately flush with plenty of water for at least 15 minutes.

5. Fire Fighting Measures

Fire:
Not expected to be a fire hazard.

Explosion:
Fire or excessive heat may produce hazardous decomposition products. This material in
sufficient quantity and reduced particle size is capable of creating a dust explosion.

**Fire Extinguishing Media:**
Water spray; Dry chemical; Carbon dioxide.

**Special Information:**
Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.

---

**6. Accidental Release Measures**

Sweep up material and package for safe feed to an incinerator.

---

**7. Handling and Storage**

Keep from contact with oxidizing materials. Containers of this material may be hazardous when empty since they retain product residues (dust, solids); observe all warnings and precautions listed for the product.

---

**8. Exposure Controls/Personal Protection**

**Airborne Exposure Limits:**
None established.

**Ventilation System:**
A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area. Please refer to the ACGIH document, *Industrial Ventilation, A Manual of Recommended Practices*, most recent edition, for details.

**Personal Respirators (NIOSH Approved):**
For conditions of use where exposure to the substance is apparent and engineering controls are not feasible, consult an industrial hygienist. For emergencies, or instances where the exposure levels are not known, use a full-facepiece positive-pressure, air-supplied respirator. WARNING: Air purifying respirators do not protect workers in oxygen-deficient atmospheres.

**Skin Protection:**
Wear impervious protective clothing, including boots, gloves, lab coat, apron or coveralls, as appropriate, to prevent skin contact.

**Eye Protection:**
Use chemical safety goggles and/or full face shield where dusting or splashing of solutions is possible. Maintain eye wash fountain and quick-drench facilities in work area.
Other Control Measures:
There is insufficient data in the published literature to assign complete numerical SAF-T-DATA* ratings and laboratory protective equipment for this product. Special precautions must be used in storage, use and handling. Protective equipment for laboratory bench use should be chosen using professional judgment based on the size and type of reaction or test to be conducted and the available ventilation, with overriding consideration to minimize contact with the chemical.

9. Physical and Chemical Properties

**Appearance:**
Gray Powder.

**Odor:**
No information found.

**Solubility:**
Appreciable (> 10%)

**Specific Gravity:**
No information found.

**pH:**
No information found.

**% Volatiles by volume @ 21C (70F):**
0

**Boiling Point:**
No information found.

**Melting Point:**
No information found.

**Vapor Density (Air=1):**
No information found.

**Vapor Pressure (mm Hg):**
0 @ 20C (68F)

**Evaporation Rate (BuAc=1):**
0

10. Stability and Reactivity

**Stability:**
Stable under ordinary conditions of use and storage.

**Hazardous Decomposition Products:**
Carbon dioxide, carbon monoxide, oxides of sulfur, oxides of nitrogen.

**Hazardous Polymerization:**
Will not occur.

**Incompatibilities:**

12. Ecological Information

**Environmental Fate:**
No information found.

**Environmental Toxicity:**
No information found.

13. Disposal Considerations

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements.

14. Transport Information

Not regulated.

(Pure / Solid)

**Australian Hazchem Code:** None allocated.  
**Poison Schedule:** None allocated.  
**WHMIS:**  
This MSDS has been prepared according to the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

### 16. Other Information

**Label Hazard Warning:**  
WARNING! HARMFUL IF SWALLOWED OR INHALED. CAUSES EYE AND SKIN
IRRITATION. MAY CAUSE ALLERGIC REACTION. POWDERED MATERIAL MAY FORM EXPLOSIVE DUST-AIR MIXTURES. CAUSES EYE AND SKIN IRRITATION.

Label Precautions:
No SAF-T-DATA Ratings have been developed for this product. Read and follow all warnings, precautions, instructions and other safety and handling information on the label and MSDS. Minimize dust generation and accumulation. Use with adequate ventilation and avoid breathing dust. Keep container closed and wash thoroughly after handling. Avoid contact with eyes, skin, clothing.

Label First Aid:
If swallowed, induce vomiting immediately as directed by medical personnel. Never give anything by mouth to an unconscious person. If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Prompt action is essential. In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse.

Product Use:
Laboratory Reagent.

Revision Information:
No Changes.
