

# Middle Grade Upper Division Program of Study Class of 2014

After completing the general core curriculum for the freshman and sophomore years (60 semester hours in areas A-F), students may apply for admission to the middle level education program. Each student in the baccalaureate program in middle level education chooses **two teaching fields, a 1<sup>st</sup> teaching field and a 2<sup>nd</sup> teaching field.** This leads to 12 possible combinations of **1<sup>st</sup> and 2<sup>nd</sup> teaching areas of concentration.**

The table below gives the required curriculum for each of the 12 possible combinations. In some cases, the required curriculum allows choices. Some courses may be offered in other semesters but should be taken in the semester listed in order to complete all required courses prior to the internship in the Spring of the senior year. Some students may be able to take alternates and lighten their loads in Spring or Fall by taking one or more courses in the preceding Summer Semester. The possibility of such options needs to be discussed with the student's teacher education advisor. CSU is committed to offering the courses listed in the semesters shown in the table. Summer course offerings cannot be guaranteed.
