Program Requirements

1. **Training:** Clayton State University requires that each adult shall complete training before he or she participates or engages with minors in a Clayton State produced or Clayton State hosted event on the University campus. The training for Clayton State employees shall be completed annually and will be documented with the adult signing a Statement of Acknowledgement indicating his or her receipt and understanding of the Clayton State University Code of Conduct. Training for volunteers will be completed online and the results must be acknowledged at a minimum of 72 hours prior to the start of the event.

Clayton State University training should include:
- Responsibilities and expectations;
- Policies, procedures and enforcement of both;
- Appropriate crisis and emergency responses (injuries, illness, staff or volunteer misconduct, minor and/or parent misconduct);
- Safety and security precautions;
- Confidentiality involving concerns with minors;
- University responsibility and liability;
- Mandatory reporting requirements.

All third-party events must include a training process. The third-party event contact must acknowledge that every employee and volunteer have been through a training which includes managing events with minors.

2. **Background Screening:** A background check shall be required of each adult prior to his or her interaction or participation with Minors in Programs covered by this policy. **Background checks for Clayton State Produced Events are the financial responsibility of the department who hosts the event.** This includes but is not limited to third party or non-Clayton State personnel who work with, instruct, or otherwise engage with Minors on Clayton State’s campus, as well as Clayton State administrators, faculty, staff, students, and volunteers who work with, instruct, or otherwise engage with Minors. Background check will include the following: criminal, sexual offender, etc.

Background checks that are defined by and acceptable to the University must be conducted and the results evaluated prior to the adult beginning to work with, instruct, or otherwise engage with Minors. Individual Programs or units may require more frequent updates. Following the completion of an initial background check, there is an affirmative duty for all faculty and staff to notify Clayton State University of new arrests and the disposition of any outstanding charges within three business days of such occurrences, and to cooperate in providing information necessary to evaluate the circumstances of the arrest and charges. There is also an affirmative duty for faculty and staff to report within three business days any adverse information resulting from subsequent background checks obtained at any practice site and to cooperate in providing information necessary for evaluating the circumstances of the adverse information. Likewise, faculty and staff members have a duty to disclose within three business days any protective orders related to a criminal charge.
It is the responsibility of the Program Director or Director’s designee of the Program to ensure that each participating adult has submitted the background request information and has subsequently received clearance to participate. The Office of Human Resources will maintain a catalog of individuals who have been cleared to participate. A decision not to allow an individual to participate in a Program covered by this Policy based on the background check will be made by Human Resources after consultation where applicable with the Provost/Vice President of Academic Affairs (or his or her designee) or Vice President of the appropriate area. Any decision to deny participation in a program involving minors must be consistent with applicable university policies on the use of background checks.

     - Overnight hosted camps are responsible for their own chaperones.

   b. Any Authorized Adult or Program Staff or other Mandatory Reporter under Georgia law who has reasonable cause to believe that suspected child abuse has occurred, shall immediately report the suspected abuse to the institution police department and the appropriate supervisor or Program Administrator who is able to take immediate action. (The USG further expects that any other USG employee, whether a Mandatory Reporter or not, will also appropriately report suspected child abuse.) The institution must ensure that the Division of Family and Children Services is notified of the suspected abuse immediately and in no case later than 24 hours after the Authorized Adult or Program Staff (or other reporter) first had reasonable cause to suspect the abuse.

5. **Random Drug Testing**

   All overnight camps held on Clayton State University’s campus by outside groups must have their own chaperones. In addition, all programs that house participants overnight in residential housing shall enter into a written agreement with Conference Services for use of the facilities.

8. **Licensing Requirements**
   As a general rule, athletic camps, science camps, clinics, after-school programs, enrichment classes and activities are regulated by the State of Georgia Department of Early Care and Learning. These activities require either a license or an issued exemption from licensure. Camps, programs and activities that are owned and operated by any department or agency of a state, county or municipal government are exempt. An exemption remains in effect until there is a change in the program. Institutions should ensure that all third party hosted programs are properly licensed or that an exemption from licensure is obtained. A copy of the license or the exemption document from the Department of Early Care and Learning must be displayed as required by state law.

Code of Conduct

Clayton State University is committed to the safety and protection of children. This Code of Conduct, along with the “Clayton State University’s Protection of Minors on Campus Policy” applies to all faculty, staff, employees, volunteers and students who represent the University and who interact with children or young people in both a direct and/or unsupervised capacity.

The public and private conduct of faculty, staff, employees, students, and volunteers acting on behalf of Clayton State University can inspire and motivate those with whom they interact, or can cause great harm if inappropriate. We must, at all times, be aware of the responsibilities that accompany our work.

We should be aware of our own and other persons’ vulnerability, especially when working alone with children and youth, and be particularly aware that we are responsible for maintaining physical, emotional, and sexual boundaries in such interactions. We must avoid any covert or overt sexual behaviors with those for whom we have responsibility. This includes seductive speech or gestures as well as physical contact that exploits, abuses, or harasses. We are to provide safe environments for children and youth at all Clayton State campuses, schools, and institutions.

We must show prudent discretion before touching another person, especially children and youth, and be aware of how physical touch will be perceived or received, and whether it would be an appropriate expression of greeting, care, concern, or celebration. Clayton State University personnel and volunteers are prohibited at all times from physically disciplining a child.

Physical contact with children can be misconstrued both by the recipient and by those who observe it, and should occur only when completely nonsexual and otherwise appropriate, and never in private. One-on-one meetings with a child or young person are best held in a public area; in a room where the interaction can be (or is being) observed; or in a room with the door left open, and another staff member or supervisor is notified about the meeting.

We must intervene when there is evidence of, or there is reasonable cause to suspect, that children are being abused in any way. Suspected abuse or neglect must be reported to the appropriate school and civil authorities as described in the Clayton State University Protection of Minors on Campus Policy.

Faculty, staff, employees, and volunteers should refrain from the illegal possession and/or illegal use of drugs and/or alcohol at all times, and from the use of tobacco products, alcohol and/or drugs when working with children. Adults should never buy alcohol, drugs, cigarettes, videos, or reading material that is inappropriate and give it to young people. Staff members and volunteers should not accept or give gifts to children without the knowledge of their parents or guardians.

Communication with children by Clayton State University personnel and volunteers is only allowed for Clayton State University business. For the protection of all concerned, the key safety concept that will be applied to these interactions is transparency. The following steps will reduce
Clayton State University Protection of Minors on Campus Policy

the risk of private or otherwise inappropriate communication between Clayton State personnel, volunteers, and minors:

- Communication between Clayton State University personnel (including volunteers) and minors that is outside the role of the professional or volunteer relationship (teacher, coach, host, etc.) is prohibited.
- Where possible, email exchanges between a minor and a person acting on behalf of the university are to be made using a tufts.edu email address.
- Electronic communication that takes place over a Clayton State University network or platform may be subject to periodic monitoring.
- Faculty, staff, and volunteers who use text messaging or any form of online communications including social media (Facebook, Twitter, etc) to communicate with minors may only do so for activities involving Clayton State business.

Applicants for first year admission to Clayton State University are often under the age of 18. For the safety of our applicants and of our Clayton State Admissions Staff, and in order to comply with the Clayton State University Protection of Minors on Campus Policy admissions personnel cannot have unmonitored contact with applicants. Interviews must:

- Be conducted in public settings in open sight of other people, such as in coffee shops or libraries;
- Not take place behind closed doors, even in public settings (i.e., if the interview is being conducted at a workplace, the office door should remain open); and
- Never be conducted in private settings (especially not at the interviewer’s personal residence).

Similarly, admissions staff members should refrain from transporting applicants to or from the interview.

Identifying Child Abuse

Child abuse occurs in different forms including; physical abuse, neglect, sexual abuse, and emotional abuse.

Physical Abuse
Physical abuse exists when a person under the age of eighteen (18) is suffering from, has sustained, or may be in immediate danger of suffering from or sustaining a wound, injury, disability, or physical or mental condition caused by brutality, neglect, or other actions or inactions.

• Physical abuse may be detected by signs such as:
• Injuries such as burns, marks, and scalds.
• Bruising which is repeated and on parts of the body where accidental injury would be unlikely to occur. Untreated injuries.

Neglect
Neglect may be detected by signs such as:
• A Minor failing to attain age-appropriate development. Neglect may be a long term problem, so in addition to awareness of a lack of care, it is important to notice physical and behavioral signs.
• A Minor being left alone and unsupervised.
• A Minor’s basic physical needs (food, shelter, clothing) not being met.

Sexual Abuse
Sexual abuse is any sexual act between an adult and a Minor or between two Minors when one exerts power over the other. Warning signs differ by the age of the Minor. You should be aware of the following possible warning signs:
• Sexual behavior or language that is not appropriate for the child’s age.
• Overly compliant behavior.
• Withdrawal or depression.
• Unexplained anger.
• Refusal to be left alone.
• Finding reasons not to go home.
• Finding reasons to avoid being with a specific person that the Minor used to spend time with.
• Self-mutilation.
• Failing grades or a change in school behavior.
• Bed-wetting or bowel-movement accidents in children who have previously outgrown it.

Emotional Abuse
Emotional abuse means an injury to the intellectual or psychological capacity of a child as evidenced by a discernible and substantial impairment in the child’s ability to function within the child’s normal range of performance and behavior, with due regard to the child’s culture. Emotional abuse includes:
• Persistent lack of love or affection.
• Shouting, taunting, or making negative remarks directed at the Minor.
