## Esports and Gaming Intern

Our esports intern program offers an unparalleled opportunity to gain hands-on experience in the rapidly growing world of competitive gaming. As an intern, you will have the chance to work alongside industry professionals and learn the ins and outs of esports event planning, marketing, and production. Our program is designed to provide a comprehensive understanding of the esports industry and equip interns with the skills necessary to succeed in this exciting field.

Sample Projects:

1. Planning and organizing the launch of City of Atlanta and Parks and Recreation local teams. Working closely with city officials by creating a checklist of what is needed to set up a esports lab. Utilizing the information gathered from the Office of Technology and Innovation and the previous Esports TAG Intern.
2. Organizing the pick-up and delivery of donations to the Esports program to the right Parks and Recreation centers.
3. Working with Esports consultants to implement strategic plans and marketing for the City of Atlanta Esports
4. Create an Esports Georgia Database
5. Create and manage Esports content for the website and social media pages.
6. Work with other interns on the "Gaming and to Technical pathways" Speaker Series Program
7. Ability to work in a startup environment.
8. Ability to work in Microsoft Office is a PLUS
9. High proficiency with Microsoft Teams is a PLUS

## Social media Intern

Esports intern with experience in event planning, content creation, and social media management seeking to further develop skills and contribute to the growth of the industry. Passionate about gaming and eager to learn from industry professionals.

## Marketing intern

The marketing intern is a valuable addition to any team, with a strong desire to learn and contribute to the success of the organization. They possess excellent communication skills, both written and verbal, and are adept at conducting market research and analysis. Their attention to detail and ability to multitask make them an asset in executing marketing campaigns and coordinating events. They are proficient in various software programs, including Microsoft Office and Adobe Creative Suite, and have experience with social media management and email marketing. With a passion for creativity and innovation, the marketing intern is eager to gain hands-on experience in the industry and make a positive impact on the company.

## Journalism Intern

The journalist and broadcasting intern will assist in researching and writing news stories, conducting interviews, and producing multimedia content for various platforms. They will also be responsible for assisting in the production of live broadcasts and editing pre-recorded segments. The ideal candidate should possess strong writing and communication skills, be able to work in a fast-paced environment and have a passion for journalism and broadcasting.

## Technology Research Intern

The technology research intern will work closely with our research team to conduct research, analyze data, and provide insights on emerging technologies. The ideal candidate should have a strong background in computer science, data analysis and research methodologies. The intern will be responsible for conducting literature reviews, analyzing data sets and assisting with the preparation of research reports. The intern will also have the opportunity to participate in team meetings and contribute to ongoing research projects. This is a great opportunity for someone who is passionate about technology and wants to gain hands-on experience in a research setting.

## Technology Consultant Intern

The technology consultant internship is a hands-on opportunity to work with our experienced team of consultants. Interns will gain practical experience in analyzing and solving complex technology problems. Responsibilities include conducting research, developing project plans,

and collaborating with clients to implement solutions. Candidates should have strong analytical and problem-solving skills, as well as knowledge of programming languages and database management. This internship is a great opportunity for those interested in pursuing a career in technology consulting.

## General Mayor Office of Technology Intern

The Atlanta Mayor's Office is seeking an intern to join our team. The selected candidate will have the opportunity to work on a variety of projects and gain valuable experience in local government. Responsibilities include conducting research, attending meetings, drafting documents, and providing support to staff members. The ideal candidate will possess strong communication and organizational skills, as well as a passion for public service. This is an unpaid internship, with a minimum commitment of 10 hours per week. Interested candidates should submit a resume and cover letter to [insert contact information].

## Digital Media Intern

We are seeking a digital media intern to document the technology ecosystem in Atlanta. The ideal candidate will have a strong interest in technology and media, as well as excellent research and communication skills. Key responsibilities include conducting research on local technology companies, attending industry events and conferences, and creating engaging content for our digital platforms. This is a great opportunity to gain hands-on experience in the field of digital media and contribute to our growing team.

## Website Design

The website design intern will be responsible for assisting the design team with creating and implementing website layouts and graphics. They will work closely with the development team to ensure that designs are functional and user-friendly. The ideal candidate will have experience with design software such as Photoshop and Illustrator, as well as a strong understanding of HTML and CSS. They should be able to work independently and collaboratively and have excellent communication skills. This is a great opportunity for someone looking to gain experience in the field of web design.
