- ✚ *Young Scholars in Writing* is a peer-reviewed undergraduate research journal: <http://cas.umkc.edu/english/publications/youngscholarsinwriting/index3.html>. Several volumes are full-text online, so we can assign them to FYW students to discuss in class. They are great samples, well-written, and might motivate our students to submit their work for publication.
- ✚ Non-profits and corporations with whom we have internships; students write for, about, and through these sites, designing their publications for real-world use.
