Regular Reports:

President Hynes

1. Our new Laboratory Annex Building has officially been named (L.A.B.)
2. A brief discussion of the recent AJC article on graduation rates – it was noted this article was based upon a cohort that had entered CSU in 2003 and may not reflect new initiatives
3. Re-asserted the need for branding of CSU, including our caring faculty
4. Announced the receipt of a signed agreement from Dr. Crafton to stay on as our permanent Provost and Vice President of Academic Affairs
5. Announced the facilities master planning meetings on Nov. 3 from 1-4 PM in CE 101

Academic Affairs (Provost Crafton)

1. There will be further study into the changing of the scheduling matrix (possibly to a MW/TR class schedule, reserving Fridays and Saturdays for 3-hour class meetings) – this will be included in our master plan
2. At some point in the near future the activity hour may be removed from our overall schedule
3. An undeclared major may be created, and Academic Affairs has no objection; however it was noted that a centralized advisement center will be needed
4. A significant amount of work is ongoing regarding due process issues, including grade appeals, disruptive student, sexual harassment – most of these are in section 400 of the faculty handbook although some are in section 200. Policies must be made to agree with one another
5. The salary study is ongoing, and recommendations may be ready by the end of this term
6. Strategic planning initiative is ongoing, although not as far along as facilities master planning. Recommendations include engaging the immediate communities, initiatives to serve transfer and non-traditional student populations, designating some programs as “Programs of Distinction”
7. The Promotion and Tenure ad hoc revision committee is continuing its work to better balance the portfolio and evaluation
8. The office would also be looking into advisement load inequities
