7. Press *Change* or **OK** button
8. Press *Save*

## PRESS THE AVAYA HOME BUTTON TO VIEW AND CHANGE THE FOLLOWING OPTIONS

### CALL SETTINGS

Press the **HOME** button

Press the *Select* softkey under *Options and Settings*. Next, press the *Select* softkey under *Call Settings*.

To change a menu option in this section, use the Navigation Arrows to highlight the feature and press the *Change* softkey or the **OK** button to select.

Press *Save* to keep your changes

#### Go to Phone Screen on Calling

When set to “Yes,” this feature will take you back to the phone screen when making a call.

#### Go to Phone Screen on Ringing

When set to “yes,” this feature will take you back to the phone screen upon getting an incoming call.

#### Go to Phone Screen on Answer

When set to “Yes,” this feature will take you back to the phone screen upon answering a call.

#### Display Call Timers

By setting this feature to “Yes,” you can turn the call timer on for each call you receive or answer.

#### Setting Redial Options

You can set Redial to dial the last number you dialed or to display a list of the last numbers you dialed.

#### Configuring Visual Alerts

When set to “On,” the Voice Mail Indicator on the top right of the phone will flash each time your phone rings.

#### Setting the Audio Path

Once highlighted, press the **OK** button to select the *Audio Path*. You can toggle between “Speaker” and “Headset.” (Speaker is the default). **DO NOT set to Headset if using a wireless device or other type of headset that uses “switchhook” control.**

#### Pair Contacts to Calls

When set to “On,” this feature will show the contact’s name rather than the calling party name for incoming, answered, transferred, or conference calls when a calling or called party number matches the number in your Contacts list.

### APPLICATION OPTIONS

Press the **HOME** button.

Press the *Select* softkey under *Options and Settings*. Use the Navigation Arrows to scroll to *Application Settings* and press the *Select* softkey.

#### History

When set to “On,” your phone will retain the History of all calls including bridged calls and calls picked up in your Call Pickup group.

#### Log Bridged Calls

When set to “Yes,” you can view the history of all calls to your bridged extension.

#### Personalize Labels – up to 13 characters
